b. THE INPLANT TRAINING

Industrial Training refers to work experience that is relevant to professional development prior to graduation and an essential component in the development of the practical and professional skills required for a Pharmacist and an aid to prospective employment. One of the requirements for the award of Bachelor of Pharmacy is that students must complete one month of Industrial Training. Industrial Training is normally done during the semester breaks at the end of the third or fourth year.

S.C.O.P. students are being accepted for industrial training by many of the pharmaceutical companies in India gracefully. Many of our students have excelled in industrial training and projects so that they have been offered jobs after completion of their degree. Some 36

students of Third Year B. Pharm and B.Pharm Final year had undergone training in various Pharmaceutical Industries across the country in this academic year. T. & P. Cell had made the necessary communication with Pharmaceutical Industries to avail the inplant training for students. The students have carried out inplant training during their summer and winter vacations.

Following Pharmaceutical Industries have engaged our students for inplant training.

4. GENERAL APTITUDE TESTS AND GROUP DISCUSSIONS

Aptitude tests were conducted for B.Pharm final year students. The purpose of the aptitude test is to test the work related perceptions, judgement and reasoning. Tests like these are utilized for a wide range of objectives and are supervised by different sources. Also 2 sessions of group discussions were arranged for final year students.
